

Oracle SQL Reference Index

This directory contains standard, dense Oracle SQL reference drawers to feed Copilot during active procedures, preventing dialect confusion.

Scope

Provides standard Oracle SQL query patterns, PL/SQL blocks, and dialect-specific features.

Consuming Procedures

- query-tuner
- mock-data-generator

Sections

id	topic	open when
query_tuning	Explain plan and optimizer hint guidelines	tuning query performance
plsql_basics	Cursors, exceptions, and bulk operations	writing PL/SQL code
oracle_idioms	Window functions, date math, and hierarchy	using Oracle-specific SQL idioms
